UNIVERSITY OF VIRGINIA SCHOOL OF MEDICINE

COURSE DESCRIPTION

A number of new therapies for a variety of neurological diseases have been introduced over the last few years; many of these new therapies could be better adopted into neurology practices. Six common but challenging neurological diseases, to include Myasthenia Gravis, Neuro-Infectious Disease, Multiple Sclerosis, Movement Disorders, Traumatic Brain Injury, and Pediatric Neurology, will be discussed in the Symposium. Each of the topics covered have published evidence-based clinical practice guidelines through the American Academy of Neurology (AAN). This symposium, which features nationally recognized speakers noted for their expertise in these existing and new therapies, will provide neurologists the opportunity to update their clinical practice and learn more effective ways to treat their patients.

EDUCATIONAL OBJECTIVES

The learners should be able to:

New Therapies for Myasthenia Gravis

1. Discuss Myasthenia Gravis variants
2. Interpret new Myasthenia Gravis clinical therapeutic trial data

Practical Review of Neuro-Infectious Disease

1. Provide updates on Infectious and Autoimmune Encephalitis
2. State when a positive cerebral spinal fluid PCR is not relevant to the neurological disease

New Therapies in Multiple Sclerosis

1. Review pathophysiology and diagnostic criteria for relapsing remitting Multiple Sclerosis
2. Review disease modifying therapies for relapsing remitting Multiple Sclerosis

New Therapies in Movement Disorders

1. Discuss evidence based data on the use of focused ultrasound treatments
2. Discuss evidence based data on the use of electrical neuromodulation therapy

New Therapies in Traumatic Brain Injury

1. Review the American Academy of Neurology 2013 guidelines on sports concussions
2. Discuss clinical aspects of traumatic brain injury / concussion

New Therapies in Pediatric Neurology

1. Discuss use of anti-epileptics during pregnancy
2. Provide an update on management of adolescent epilepsy

DISCLOSURE OF FACULTY FINANCIAL AFFILIATIONS

The University of Virginia School of Medicine, as an ACCME accredited provider, endorses and strives to comply with the Accreditation Council for Continuing Medical Education (ACCME) Standards of Commercial Support, Commonwealth of Virginia statutes, University of Virginia policies and procedures, and associated federal and private regulations and guidelines on the need for disclosure and monitoring of proprietary and financial interests that may affect the scientific integrity and balance of content delivered in continuing medical education activities under our auspices.

The University of Virginia School of Medicine requires that all CME activities accredited through this institution be developed independently and be scientifically rigorous, balanced and objective in the presentation/discussion of its content, theories and practices.

All speakers participating in an accredited CME activity are expected to disclose to the readers relevant financial relationships with commercial entities occurring within the past 12 months (such as grants or research support, employee, consultant, stockholder, member of speakers' bureau, etc.). The University of Virginia School of Medicine will employ appropriate mechanisms to resolve potential conflicts of interest to maintain the standards of fair and balanced education to the participant. Questions about specific strategies can be directed to the Office of Continuing Medical Education, University of Virginia School of Medicine, Charlottesville, Virginia.

The faculty and staff of the University of Virginia Office of Continuing Medical Education have no financial affiliations to disclose.

Disclosure of Discussion of Non-FDA Approved Uses for Pharmaceutical Products and/or Medical Devices

The University of Virginia School of Medicine, as an ACCME provider, requires that all faculty presenters identify and disclose any off-label uses for pharmaceutical and medical device products. The University of Virginia School of Medicine recommends that each physician fully review all the available data on new products or procedures prior to clinical use
