DEPARTMENT OF NEUROLOGY  
PRESENTS

# THE FIRST VIRGINIA REGIONAL MOVEMENT DISORDERS SYMPOSIUM

**SATURDAY, OCTOBER 25, 2014**

**Jordan Hall Conference Center  
Lane Road, Charlottesville, VA 22936**

**Course Director: Binit Shah, MD and Madaline B. Harrison, MD**

**TARGET AUDIENCE: Neurologists, Board-certified movement specialists, and neuropsychologists. Movement disorders team members including nurse practitioners, physician assistants, speech therapists are also welcome to attend.**

The field of Parkinson's disease and movement disorders neurology is constantly evolving. Our increase in tools (genetic, imaging, laboratory) are increasing in sophistication and complementing the clinical assessment of movement disorders patients. There have recently been new guidelines in the treatment of essential tremor and Huntington's disease chorea as well as new recommendations and evidence of changes to how treatments such as intestinal levodopa and deep brain stimulation are delivered in Parkinson's disease. The Virginia Movement Disorders symposium will provide for presentation and review of the newest guidelines and understanding of movement disorders.

**LEARNING OBJECTIVES:**

- To review new and upcoming diagnostic and treatment modalities in Parkinson's disease
- To understand the contemporary research involved in Huntington's disease
- To review the latest in understanding of pathophysiology and future research directions in essential tremor and dystonia
- To review and discuss interested or atypical presentations of neurologic diseases with movement disorders
