Free Parking under McLeod Hall and in the South Garage---both garages are within 2 minutes walking distance to Jordan Hall

**[CLICK HERE FOR REGISTRATION](#)**

## Program Description:

The practice of medicine is ever evolving especially in women's health. Provider's must continually update their knowledge and practice across the whole lifespan of a women's life from HPV vaccination in adolescents to new information about breast cancer screening, hormonal therapy, and osteoporosis as women transition through menopause. The conference strives to address these knowledge gaps with an agenda focused on updating providers with latest guidelines, practical management strategies, and innovative treatment options in women's health.

## Who Should Come:

This course is directed at physicians, nurse practitioners, physician assistants, midwives, nurses, and other health care providers in all fields that provide women's health including family medicine, internal medicine, obstetrics and gynecology, and radiology. Interested members of the community are welcome to attend this conference.

## Topics Include

Paps and HPV ■ Contraception ■ HIV and STDs ■ Abnormal Uterine Bleeding and Fibroids ■ Menopause and HRT  
Breast and Ovarian Cancer Screenings ■ Cardiovascular Health for Women

There will also be cases with questions and discussion, opportunity to sign up for Nexplanon provider certification course, and a chance to experience DaVinci and Hysteroscopic Simulation.

Sponsored by

**The University of Virginia Office of CME**
